The Journal of Neurology and Psychopathology

VOLUME VIII, 1927-28

INDEX.

INDEX.

ABORTION, induction of, in the treatment and prophylaxis of mental disorder (J. K. LORD), 183.
Abrahm Kardl, Selected Papers of, review, 377.
Acetic anhydride-sulphuric reaction for general paresis (A. G. DUNCAN), 179.
Action-tremor (H. DE JONG), 260.
ACTON, HUGH W.: Neurasthenia in the tropics, 168.
Adaptation difficulties in college students (KARL A. MENNINGER), 268.
Adrenalin glycæmic curve as a diagnostic aid in psychiatry (HAROLD GORDON, JESSIE M. OSTRANDER, and STELLA COUNSELL), 372.
ADROGUE, E. (and M. BALADO): Paralysis of associated eye movements, 261.
Afenil treatment in schizophrenia (U. BERNDT and K. KULLE), 374.
AHRENS, R. S.: A study of the vibratory sensation, 160.
Albuminoid molecules, presence in the cerebro-spinal fluid of products of the breaking up of (A. MASSAZZA), 151.
Alcoholic neuritis. *See* Neuritis.
ALLEN, FREDERICK H.: Psychic factors in juvenile delinquency, 371.
ALLEN, W.: The relation of occupation to migraine, 365.
ALURRADE (and SEPICH): Progressive multiple neuritis, 157.
Amaurotic idiocy. *See* Idiocy.
AMESSE, J. W. (and W. W. BARBER): Syphilitic meningitis in infants and young children, 360.
Amok and lattah (F. H. G. VAN LOON), 175.
Amusia, observations on the problem of (K. M. WALTHARD), 258.
Amyotonia congenita, pathology of (ROY R. GRINKER), 353.
Anæmia, pernicious, combined sclerosis in, with polyneuritis presenting the symptoms of a senile paraplegia (H. DE JONG), 361.
Anarthria during meningoencephalitis (K. PETREN and S. INGVAR), 155.
ANDERSON, WILLIAM K.: *Matarial Psychoses and Neuroses; their Medical, Sociological and Legal Aspects*, review, 84.
Aneurisms, intracranial (L. J. SANDS), 260.
Angioma racemosum, cerebral, clinical picture of (EIMER and MEHLHOSE), 258.
— venous, of the cerebrum (C. WORSTER-DROUGHT and W. E. CARNEGIE DICKSON), 19.
Angiospasm of the nervous centres: attempt at a classification and pathogenesis (F. BREMER and H. COPPEZ), 156.
Apes, reflexes in (G. D. ARONOVITCH), 348.
Arachno-perineuritis, chronic, with the syndrome of Froin (R. R. GRINKER), 52.
ARKUSH, A. S. (and F. PROESCHER): Blood groups in mental diseases, 372.
ARONOVITCH, G.: On the nature of the cremasteric reflex, 264.
— Reflexes in apes, 348.
Arteries, retinal, and cerebro-spinal fluid, comparison of the tension of (H. CLAUDE, A. LAMACHE, and J. DUBAR), 349.
— spinal, thrombosis of (HELGE VEDSMAND), 355.
Artery, cerebellar, posterior inferior, occlusion (embolic) of (KNUD WINTHER), 355.
ASCHAFFENBURG, G. (editor): *Handbuch der Psychiatrie*, Bd. I, review, 187.
Ataxia, dysmetric ocular (C. ORZECHOWSKI), 260.
Atrophy, progressive muscular, of the Charcot-Marie type, hereditary transmission of (L. DE LISI), 160.

BACHMANN, FRITZ: *Ueber Kongenitale Wortblindheit* (Angeborene Leseschwäche), review, 87.
BADEANO, G.: Basal metabolism in mental cases, 180.
BAILEY, P.: The syndrome of mental automatism and its role in the formation of the chronic systematized psychoses: a review, 369.
— (and G. SCHALTENBRAND): Mucoid degeneration of the oligodendroglia, 44.
BALADO, MANUEL: Tumours of the epiphysis, 165.
— (and E. ADROGUE): Paralysis of associated eye movements, 261.
BALO, JOSEPH: Encephalitis periaxialis concentrica, 357.
BARBER, W. W. (and J. W. AMESSE): Syphilitic meningitis in infants and young children, 360.
BARODI, U. (and S. RICCA): The diffuse periaxial encephalitis of Schilder, 154.
BARRETT, ALBERT M.: Hereditary relations in schizophrenia, 171.
BARTLETT, R. J.: Does the psychogalvanic reflex phenomenon indicate emotion? 166.
Baryanæsthesia (Z. ISTVAN), 161.
Basal ganglia and their connexions, pathologico-anatomical researches in reference to (S. KODAMA), 253.
— metabolism in mental cases (G. BADEANO), 180.
BASCOUBRET, MAURICE: *Les Troubles vasculaires dans le Tabes*, review, 91.
BAU-PRUSSAK, S. (and L. PRUSSAK): The permeability of the hæmato-encephalic barrier in nervous and mental diseases, 352.
BECKER, WILLIAM: The sugar and chloride content of the cerebro-spinal fluid, with special reference to neurosyphilis, 46.
Behaviour, human, study of (OSWALD H. BOLTZ), 68.
Bell, the phenomenon of, and the hyperkinetic bulbo-palpebral phenomenon (C. NEGRO), 263.
BENEDEK, L. (and F. KULCSAR): Treatment of general paralysis by the organism of recurrent fever, 56.
BERKELEY-HILL, OWEN: Some therapeutic investigations carried out at the Ranchi European Mental Hospital, 181.
Berlin blue, colloidal reaction of, and its clinical value (U. DE GIACOMO), 150.
BERLINER, M. (H. HOFF and P. SCHILDER): On attacks of loss of tone, 49.
BERLUCCHI, CARLO: Corpus callosum and dyspraxia, 159.
BERNDT, U. (and K. KULLE): Afenil treatment in schizophrenia, 374.
BERTRAND, I. (and G. GUILLAIN): *Anatomie topographique du système nérveux central*, review, 84.
BETTENHAUSER, K.: On so-called late tetany, 56.
BIELCHOWSKY, FRANZ: Significance of infection in diffuse sclerosis, 51.
BIELCHOWSKY, M.: Diffuse sclerosis, 154.
— (and M. ROSE): Central changes in Recklinghausen's disease, 254.
BING, ROBERT: *Compendium of Regional Diagnosis in Affections of the Brain and Spinal Cord*, reviews, 92, 285.
Blood cells, red, in mental disease, fragility and solubility of (MARGARET SCORESBY-JACKSON), 74.
Blood groups in mental diseases (F. PROESCHER and A. S. ARKUSH), 372.
— — in schizophrenia and manic-depressive psychosis (THEOPHILE RAPHAEL, OLIVE M. SEARLE, and WILLIAM SCHOLTEN), 174.

Blood pressure in the insane (G. G. PARKIN), 73.
— **serum and cerebro-spinal fluid, xanthro-protein and indican content of,** 252.
— **sugar curve in dementia præcox** (J. FOREST SMITH and H. GARDINER HILL), 68.
— **and urine in mental disorders, biochemical study of** (B. REID), 75.
Blood-grouping of mental cases (A. PILCZ), 271.
BOLSI, D.: Nature and pathogenesis of plaques of senile degeneration, 148.
— New methods of impregnation of microglia, 250.
BOLTZ, OSWALD H.:—Some factors which determine a schizophrenic (dementia præcox) reaction in males: a contribution to the study of human behaviour, 68.
BORCHEWSKY, R.: *Pathologie et Méthodes d' Examen du Liquide Céphalo-rachidien*, review, 90.
BORDIER, H.: A new treatment for infantile paralysis, 164.
BOUCHE: Treatment of meningococcal meningitis, 264.
BOWMAN, K. M.: Endocrine and biochemical studies in schizophrenia, 368.
Brain, centrolobar sclerosis of (C. FOIX and J. MARIE), 358.
— **cortex in human races and in some animals, relative weight of** (C. U. ARIENS KAPPERS), 44.
Brain stem of man, the columnar arrangement of the primary afferent centres in (W. FREEMAN), 346.
Brain-swelling, fatal, pathology of (E. STENGEL), 252.
BREMER, F. (and H. COPPEZ):—Angiospasm of the nervous centres: attempt at a classification and pathogenesis, 156.
BROCK, S. (and S. KATZ): Evolution of an encephalitic dystonia into a hypertonic-akinetic syndrome resembling Wilson's progressive lenticular degeneration, 356.
BROWN, M. (and A. R. MARTIN): Treatment of general paralysis by tryparsamide, 58.
BROWN, P. K. (WALTER B. COFFEY and J. D. HUMBER):—*Angina Pectoris: the Anatomy, Physiology and Surgical Treatment*, review, 189.
BROWN, WILLIAM: *Mind and Personality*, review, 82.
BUNKER, HENRY A.:—Juvenile paresis: its salient characteristics, with special reference to infantilism, 53.
BURROW, T.: Psychoanalysis in theory and in life, 267.
BUSCAINO, V. M.: A case of cerebral cysticercus diagnosed during life, 154.
— Contribution to the symptomatology of cerebellar lesions, 156.
— Results of the researches in the histopathology of dementia præcox made in the years 1924-1925, 173.

CADY, LEE D. (and SIDNEY I. SCHWAB): Use of tryparsamide in neurosyphilis, 57.

Cajal and Hortega glia staining methods (J. H. GLOBUS), 251.
Calcium chloride and gluco-calcium intravenously in treatment of some epileptics (E. KLEIN and E. FORCIONE), 361.
CALLEWAERT: The pathogenesis of writer's cramp, 267.
CAMAUER, A. F. (and M. R. CASTEX): The syndrome of the corpora quadrigemina, 262
CAMBRELIN (and HIGGUEL): Alcoholic toxic neuritis of the acoustic nerve, with report of one case, 157.
CAMIA, M.: Modern observations on heboido-phrenia, 174.
Cancer, metastatic, of the central nervous system (N. W. WINKELMAN and J. L. ECKEL), 351.
Carbon monoxide poisoning followed by Parkinsonism (ROY R. GRINKER), 260.
Carcinoma. *See* Cancer.
CASSINIO, F.: Familial spinal spastic paraplegia, 160.
CASSITY, J. H.: The functional psychoses as an evolution of psychic impotency, 367.
CASTEX, M. R. (and A. F. CAMAUER): The syndrome of the corpora quadrigemina, 262.
Cataplexy, case of (R. D. GILLESPIE), 33.
Cerebellar lesions, contribution to the symptomatology of (V. M. BUSCAINO), 156.
Cerebellum weight, relation of, to the total brain weight in human races and in some animals (C. U. A. KAPPERS), 346.
Cerebral angioma. *See* Angioma.
— **circulation** (H. S. HOWE and E. MCKINLEY), 249.
— **cortex, blood vessel distribution of the** (R. LORENTE DE NO), 249.
— **cysticercus.** *See* Cysticercus.
— **meiopragia.** *See* Meiopragia.
— **pulse, studies in** (J. TINEL), 348.
Cerebro-spinal fluid and blood serum, xanthro-protein and indican content of, 252.
— — **circulation of, from the standpoint of intraventricular and intraspinal therapy** (C. C. RIQUIER and A. FERRARO), 47.
— — **presence of products of the breaking up of albuminoid molecules in** (A. MASSAZZA), 151.
— — **presence of an oxytocic substance (posterior hypophysis extract) in** (S. SHAPIRO), 151.
— — **and retinal arteries, comparison of the tension of** (H. CLAUDE, A. LAMACHE, and J. DUBAR), 349.
— — **secretion, experimental variation of the** (HIRSCH-TABOR and VOLLMAR), 249.
— — **sugar and chloride content of, with special reference to neurosyphilis** (WILLIAM BECKER), 46.
Cerebrum, venous angioma of (C. WORSTER-DROUGHT and W. E. CARNEGIE DICKSON), 19.
Cervical sympathetic nerve. *See* Nerve.
CESTAN, R. (and M. PERES): Intraventricular treatment of paresis, 373.
CHEVENS, L. C. F.: Hypothesis of the mechanism of the functional psychoses, 177.
China, neuropsychiatry in (J. L. MCCARTNEY), 177.
Chorea chronica progressiva: Degeneration of the microcellular system of the neostriatum, together with a pachymeningitis hæmorrhagica totalis (F. H. G. VAN LOON and A. J. F. OUDENDAL), 48.
— **with hepatic cirrhosis** (G. SCHALTENBRAND), 49.
— **Huntington's, with endocarditis and polyarthritis** (JAMES F. CLANCY), 359.
— **pathologic changes in** (C. R. DUNLAP), 349.
— **Sydenham's, acute, neuropathological findings in a case of** (L. H. ZIEGLER), 350.
CHRISTENSEN, J.: Dystrophia myotonica and its relation to the autonomic nervous system, 55.
CIMBAL, W.: *Die Neurosen des Kindesalters: mit besonderer Berücksichtigung von Lernschwache und Schwererziehbarkeit*, review, 282.
Cirrhosis, hepatic, with chorea (G. SCHALTENBRAND), 49.
Cisternal puncture replacing lumbar puncture (O. KROISZ), 46.
CLANCY, JAMES F.: Chorea of Huntington with endocarditis and polyarthritis, 359.
CLAUDE, H. (and A. LAMACHE and J. DUBAR): Comparison of the tension of the retinal arteries and of the cerebro-spinal fluid, 349.
CLAUSE, H. (and J. CUEL):—Cerebral meiopragia from early angiosclerosis without focal ischæmia: variety of presenile arteriosclerotic dementia, 272.
Clothing and bodily adornment, function of (H. C. SANBORN), 62.
— **the development and function of** (KNIGHT DUNLAP), 363.
COFFEY, WALTER (P. K. BROWN and J. D. HUMBER):—*Angina Pectoris: the Anatomy, Physiology and Surgical Treatment*, review, 189.
COHEN, ROGER S. (and ELMER KLEIN): Careers of patients discharged from St. Elizabeth's Hospital against medical advice, 1920-1925, 184.

Colloidal gold. *See* Gold.
Coma, pupils as an aid to diagnosis in states of (W. C. MENNINGER), 361.
CONKLIN, E. S.: *Principles of Abnormal Psychology*, review, 378.
COPPEZ, H. (and F. BREMER): Angiospasm of the nervous centres, 156.
CORBERI, G.: Regressio mentis infanto-juvenilis (dementia infantilis familiaris), 179.
Cord degeneration, subacute combined (WALTER F. SCHALLER), 160.
Cornea, annular opacities of the (ANTON LUTZ), 163.
Corpora quadrigemina, the syndrome of the (M. R. CASTEX and A. F. CAMAUER), 262.
Corpus callosum and dyspraxia (CARLO BERLUCCHI), 159.
Corticothalamic-paths in certain small mammals (D'HOLLANDER and GHISOLAND), 248.
Conduct disorders, the part of in the concept of constitutional psychopathic inferiority (J. H. HUDDLESTON), 68.
CONE, WILLIAM (and WILDER PENFIELD): The acute regressive changes of neuroglia, 45.
Convulsions, infantile, their frequency and importance (D. A. THOM), 52.
COUNSELL, STELLA (HAROLD GORDON and JESSIE M. OSTRANDER): The adrenalin glycaemic curve as a diagnostic aid in psychiatry, 372.
Cramp, writer's, pathogenesis of (CALLEWAERT), 267.
Cranial hyperostosis, localised, in the insane (R. M. STEWART), 321.
Cremasteric reflex, nature of (G. ARONOVITCH), 264.
Crime problem, need for co-operation between the legal profession and the psychiatrist in dealing with the (WILLIAM A. WHITE), 374.
CRITCHLEY, MACDONALD: On palilalia, 23.
— (and W. ALDREN TURNER): Prognosis and late results of postencephalitic respiratory disorders, 191.
CROOKSHANK, F. G.: *Diagnosis and Spiritual Healing*, review, 279.
CROTHERS, BRONSON (FRANK R. FORD and MARIAN C. PUTNAM): *Birth Injuries of the Central Nervous System*, review, 276.
CRUCHET, RENÉ: The tics and allied conditions, 104.
CUEL, J. (and H. CLAUSE): Cerebral meliopragia from early angiosclerosis without focal ischaemia, variety of presenile arteriosclerotic dementia, 272.
CULPIN, MILLAIS: *Medicine: and the Man*, review, 380.
Curare, attempts to inhibit the muscular rigidity of Parkinsonism, by (KAIRIUKSCHTIS and KUTORGA), 265.
Cyst of third ventricle; complete destruction of infundibular region without any so-called hypophyseal signs (L. FREY), 360.
Cysticercus, cerebral, case of, diagnosed during life (V. M. BUSCAINO), 154.

DAVIE, T. M.: Tryparsamide therapy in general paralysis of the insane, 57.
DAVIS, GUY PRATT: *What Shall the Public Schools do for the Feeble-Minded?* review, 285.
DAVIS, R. M. (H. G. MEHRTENS and H. A. WYCKOFF): Colloidal gold reactions with spinal fluids contaminated with blood, 352.
D'HOLLANDER and GHISOLAND: The corticothalamic paths in certain small mammals, 248.
DE JONG, H.: Action-tremor, 260.
— Case of combined sclerosis in pernicious anaemia with polyneuritis presenting the symptoms of a senile paraplegia, 361.
DE LISI, L.: Observations and studies on the hereditary transmission of progressive muscular atrophy of the Charcot-Marie type, 160.
DELMAS-MARSALET, P.: *Les Réflexes de Posture Élémentaires*, review, 283.
Delusional projection-mechanism in a case of paralysis agitans (I. S. WECHSLER), 269.
Dementia infantilis familiaris (G. CORBERI), 179.
— praecox, blood-sugar curve in (J. FOREST SMITH and H. GARDINER HILL), 68.
— — results of the researches in the histopathology of, made in the years 1924-25 (V. M. BUSCAINO), 173.
— — Some factors which determine a schizophrenic reaction in males: a contribution to the study of human behaviour (OSWALD H. BOLTZ), 68.
— — *See also* Schizophrenia.
DE VILLAVERDE, J. M.: Lesions of nerves in experimental lead poisoning, 354.
DICKSON, W. E. CARNEGIE (and C. WORSTER-DROUGHT): Venous angioma of the cerebrum, 19.
DIETERLE, R. R.: Method of demonstration of *Spirochaeta pallida* in single microscopic sections, 251.
Dorsal roots in muscle tonus, the role of the (S. W. RANSON), 347.
DRAGANESCO, S.: Pathogenesis and physiological pathology of herpes zoster, 152.
Drug addiction: the struggle for cure and the conscious reasons for relapse (L. KOBB), 365.
DRURY, K. K.: Ultra-violet radiation in mental hospital practice, 76.
DUBAR, J. (H. CLAUDE and A. LAMACHE): Comparison of the tension of the retinal arteries and of the cerebro-spinal fluid, 349.
Dujardin: Herpes in syphilitic patients, 263.
DUNCAN, A. G.: The acetic anhydride-sulphuric reaction for general paresis, 179.
DUNLAP, C. R.: Pathologic changes in Huntington's chorea, 349.
DUNLAP, KNIGHT: The development and function of clothing, 363.
Dysmetric ocular ataxia (C. ORZECHOWSKI), 260.
Dystrophia myotonica (WILHELM SERG), 55.
— — and its relation to the autonomic nervous system (J. CHRISTENSEN), 55.

EAST, W. NORWOOD: *An Introduction to Forensic Psychiatry in the Criminal Courts*, review, 83.
ECKEL, J. L. (and N. W. WINKELMAN): Metastatic carcinoma of the central nervous system, 351.
EGGER, MAX: Direct and reflex paralyses in extrapyramidal lesions, 49.
EIMER (and MEHLHOSE): The clinical picture of cerebral angioma racemosum, 258.
ELDER, WILLIAM: *Studies in Psychology*, review, 379.
Emotional maladjustment during pregnancy, with possible relationship to enuresis in the child, 169.
Emotions, mechanism of the (MEYER SOLOMON), 266.
Encephalitic dystonia, evolution of into a hypertonic-akinetic syndrome resembling Wilson's progressive lenticular degeneration (S. BROCK and S. KATZ), 356.
Encephalitis, epidemic, the mental aspects of (ROBERT MACNAB MARSHALL), 273.
— lethargica (W. D. PATTON), 164.
— — of a haemorrhagic type: complete nuclear ophthalmoplegia and bilateral choked disc during an acute attack of (VAN BOGAERT and VAN DE BRIEL), 262.
— periaxialis concentrica (JOSEPH BALO), 357.
— — diffusa (H. KOGERER), 256.
— post-vaccinal, histology of (J. R. PERDRAU), 350.
— of Schilder, the diffuse periaxial (U. BARODI and S. RICCA), 154.
— (GEORG SCHALTENBRAND), 358.
— after vaccination (D. WIERSMA), 356.
Encephalomyelitis, acute disseminated, and acute multiple sclerosis, infectious origin of (PETTE) 255.
Endocrine and biochemical studies in schizophrenia (K. M. BOWMAN), 368.
— organs in the psychoses (BERTRAM D. LEWIN), 367.
— therapy (LOUIS MINSKI), 165.

Epilepsy illustrating the loss of cortical control over lower functions (R. G. GORDON), 241.
— inhibitory (S. A. KINNIER WILSON), 332.
— studies of metabolism in (W. G. LENNOX), 255.
Epileptic seizure, pathogenesis of (W. SPIELMEYER), 149.
— variants (S. A. KINNIER WILSON), 223.
Epileptics treated with intravenous calcium chloride and gluco-calcium (E. KLEIN and E. FORCIONE), 361.
— — in institutions in the United States (HORATIO M. POLLOCK and EDITH M. FURBUSH), 178.
Epiphysis, tumours of the (MANUEL BALADO), 165
Extrapyramidal lesions, direct and reflex paralyses in (MAX EGGER), 49.
— syndrome. *See* Syndrome.
Eye movements, associated, paralysis of (M. BALADO and E. ADROGUE), 261.

FACIAL paralysis, mimic (ANTHONY FEILING), 141.
Fatigue, alterations in the central nervous system in (V. TRONCONI), 150.
FAY, TEMPLE: Observations and results from intracranial section of the glossopharyngeus and vagus nerves in man, 110.
FEILING, ANTHONY: Case of mimic facial paralysis, 141.
FERRARO, A. (and C. C. RIQUIER): Circulation of the cerebro-spinal fluid from the standpoint of intraventricular and intraspinal therapy, 47.
— (and T. C. C. FONG): Malaria treatment of general paralysis, 182, 373.
FISHER, L. (and F. C. GRANT): Intracranial lesions with report of vestibular test findings, 50.
FLEISCHMANN, S.: *Plötzliche und akute Erkrankungen des Nervensystems: ihr Erkennen und ihr Behandlung*, review, 89.
FLÜGEL, J. C.: Sexual and social sentiments, 167.
FOERSTER, O.: *Die Leitungsbahnen des Schmerzgefühls und die chirurgische Behandlung der Schmerzzustände*, review, 85.
FOIX, C. (and J. MARIE): Centrolobar sclerosis of the brain, 358.
FONG, T. C. C. (and A. FERRARO): Malaria treatment of general paralysis, 182, 373.
FORBES, H. S. (and F. FREMONT SMITH): Intraocular and intracranial pressure, 250.
FORCIONE, E. (and E. KLEIN): Intravenous treatment of some epileptics with calcium chloride and gluco-calcium, 361.
FORD, F. R. (and A. J. SCHAFFER): The etiology of infantile acquired hemiplegia, 257.
— (BRONSON CROTHERS and MARIAN C. PUTNAM): *Birth Injuries of the Central Nervous System*, review, 276.
FOSTER, SYBIL: Study of the personality, make-up, and social settings of fifty jealous children, 65.
FREEMAN, W.: The columnar arrangement of the primary afferent centres in the brain-stem of man, 346.
FREY, L.: Cyst of third ventricle: complete destruction of infundibular region without any so-called hypophyseal signs, 360.
FULTON, J. F.: *Muscular Contraction and the Reflex Control of Movement*, review, 78.
Functional psychoses. *See* Psychoses.
FURBUSH, EDITH M. (and HORATIO M. POLLOCK): Epileptics in institutions in the United States, 178.

GANGLIA, basal and their connexions, pathologico-anatomical researches with reference to (S. KODAMA), 253.
GARCIN, RAYMOND: *Le Syndrome Paralytique Unilateral Global des Nerfs Craniens*, review, 189.
Gastro-intestinal motor functions in schizophrenia (GEORGE W. HENRY), 173.
GERTY, F. J. (M. M. KUND and G. W. HALL): General paralysis, 274.
GHISOLAND and D'HOLLANDER: The cortico-thalamic paths in certain small mammals, 248.
GIACOMO, U. DE: The colloidal reaction of Berlin blue and its clinical value, 150.
GILLESPIE, R. D.: A case of cataplexy, 33
— (and D. K. HENDERSON): *A Text-book of Psychiatry for Students and Practitioners*, review, 185.
Glioma, diffuse (F. P. MOERSCH), 47.
GLOBUS, J. H.: The Cajal and Hortega glia staining methods, 251.
Glossopharyngeus and vagus nerves in man, observations and results from intracranial section of the (TEMPLE FAY), 110.
Gluco-calcium and calcium chloride intravenously in treatment of some epileptics (E. KLEIN and E. FORCIONE), 361.
Glucose infusions in schizophrenics who refuse nourishment (F. OSTER), 75.
Gold, colloidal: reactions with spinal fluids contaminated with blood (H. G. MEHRTENS, H. A. WYCKOFF, and R. M. DAVIS), 352.
GOLDSMITH, H. (and R. ROCKWOOD): Treatment of neurosyphilis and paresis with malaria, 373.
GOLDSTEIN, M.: The island of Reil, 148.
GORDON, A.: Segmental trophic œdema of cerebral origin, 360.
— Experience of 2,000 intramuscular injections of neoarsphenamine in neurosyphilis, 362.
GORDON, HAROLD (JESSIE M. OSTRANDER and STELLA COUNSELL): The adrenalin glycæmic curve as a diagnostic aid in psychiatry, 372.
GORDON, J. LESLIE: Congenital syphilis in mental deficiency, 179.
GORDON, R. G.: Case of epilepsy illustrating the loss of cortical control over lower functions, 241.
— *The Neurotic Personality*, review, 277.
